

Hyaluronic Acid • Sodium Hyaluronate • Oral Solution

DESCRIPTION:

Hyalun[®] is hyaluronic acid in solution for oral administration. The hyaluronic acid in Hyalun[®] is one of the purest and highest in molecular weight. Molecular Weight is no less than 2.4 million Daltons.

CHEMICAL NAME:

Sodium Hyaluronate (COO Na) (CH₂OH)

CHEMISTRY:

Hyaluronic acid, a glycosaminoglycan, can exist in the following forms depending on the chemical environment in which it is found. As the acid, hyaluronic acid; and as the sodium salt, sodium hyaluronate. It is composed of repeating subunits of D-glucuronic acid and N-acetyl-D-glucosamine linked together by glycosidic bonds.

WHAT IS HYALURONIC ACID:

Hyaluronic acid is a special mucopolysaccharide occurring naturally throughout the horse's body. One of the most heavily researched substances in medicine today with thousands of clinical trials mostly in the fields of orthopedics and eye surgery. Its function in the body is, amongst other things, to bind water and lubricate movable parts of the body, such as joints and muscles. Its consistency and tissue-friendliness allows it to be used in skincare products as excellent moisturizer. Hyaluronic acid is one of the most hydrophilic molecules in nature and can be described as "nature's moisturizer".

KEY BENEFITS OF HYALURONIC ACID:

- Supports joint and cartilage function.
- Reduces joint friction.
- Maintains joint mobility.
- Lubricates the soft tissue of the joint.

INGREDIENTS:

High molecular weight hyaluronic acid, sterile water

HOW SUPPLIED:

180 ml (6 oz.) PVC plastic bottle with equine extension dispensing tip

DIRECTIONS FOR USE:

Administer 2ml (1 full trigger squeeze) per 1,100 pound body weight per day or as recommended by your veterinarian. 90 servings per container. For equine oral use only – not for injection.

DIRECTION FOR STORAGE AND WARNINGS:

Store at room temperature.

KEEP OUT OF REACH OF CHILDREN.

DO NOT USE IF SEAL IS BROKEN.

FURTHER PRECAUTIONS:

To avoid contamination of product, use caution placing the dispenser tip on the bottle. Discard 90 days after opening.

Any statements made have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

MANUFACTURED FOR:
